RE: Docket 2009-489-E

Dear Sir or Madam:

I am a former employee of South Carolina Electric & Gas. My position at SCE&G was Environmental and Safety Coordinator at the McMeekin Steam Generating facility located at the dam on Lake Murray. I can assure you without doubt, SCE&G knew of these requirements back in the 90's when I was employed there. You only need to subpoena Jack Preston and Debra Blanks to corroborate this.

I can cite numerous incidents where environmental reporting was falsified under the direction of Jack Shuman and safety issues by Randy French. This request is no different. This company will lie to your face and laugh. But then, who do you really represent? The citizens of South Carolina or SCE&G and the politicians that appointed you?

Regards,

Thomas E. Dukes
